

# Plastic Dock Wheels

Tough & Resilient for Roll-in Docks and Lifts

## Plastic Dock Wheels for Roll In Dock and Boat Lifts

Rely on Premier Material's dock wheels to get your dock in and out of the water with ease. Convert your dock into an easy-to-install, roll-in-dock and eliminate the struggles of manually putting your docks in every year. These dock wheels are also designed for boatlifts to help easily take your boat in and out of the water.

Time at the lake is precious, so spend less of it installing your docks and quickly roll them into the lake using Premier Materials dock wheels. If you have any questions about our dock wheels or any other dock solutions, please contact us today!

- Premier Dock Wheels are the strongest in the industry. Based on third party test results our dock wheel has a weight limit of 1,300 lbs. per dock wheel.
- Our plastic dock wheels can be quickly installed and are built to last.

- They are designed for roll-in docks and boat lifts. Because they are made from very strong polyethylene, they will never wear out. They roll easily on all terrains and require no maintenance.
